**Workshop Description**

**Multi-Faceted ASL**

**Presenter: Faith Powell MA, CSC**

**When telling a story, native and near-native signers use certain ASL features in creative ways to make the story “come alive.” Strategies such as constructed dialogue, use of classifiers, mime, gestures and facial expression are layered into the expressive narrative.**

**Developing the ability to incorporate these strategies will increase a signer’s accuracy, effectiveness and naturalness in delivering a message.**

**This workshop breaks down these strategies into building blocks and encourages participants to “build” an ASL story by focusing on each of these building blocks separately and then constructing a more natural and engaging ASL narrative.**

**FREE WORKSHOP/ 0.6 CEUs to all GaRID Members.  
Participants may order a LUNCH during the registration  
period, and a group order will be placed on the  
day of the event at a cost of approximately \$10.00.**
