

Introduction to Demand-Control Schema and the Practice Profession of Interpreting

ROBYN K. DEAN
•
CI/CT, PhD

Workshop Overview

There has been a significant shift in ethical expectations in the field of interpreting from a deontological, or a rule-based approach to a more teleological, or goal and consequences-based approach. Given that, interpreters are no longer expected to rely on rules, which tell professionals what to think ethically but how to think ethically. Unfortunately, most working professionals and educators have learned to make ethical decisions through trial and error and now make most of their ethical decisions intuitively. Intuitive knowledge, while often effective, is harder to access for their own analyses and for practical discussions with colleagues and consumers.

In this presentation, participants are provided with a basic review of the constructs of demand-control schema (DC-S) with much attention on the use of DC-S as *dialogic work analysis*. The dialogic work analysis provides practitioners, mentors and teachers with ethical constructs which can be used in the analysis of their own work and used as a framework in their discussions with their colleagues, mentees or students.

Learning Objectives

At the conclusion of the training, participants will be able to:

1. Define a practice profession and the implications for that shift in the interpreting profession
2. Explain DC-S as theoretical construct and DC-S as dialogic work analysis
3. Explain the problems of rhetoric versus de facto practice

CEUs

GaRID is an Approved RID CMP Sponsor for continuing education activities. This PS program is offered for 1.0 CEUs at the Some/Intermediate Content Knowledge Level.

Date: January 4, 2021

Time: 9:00 am – 4:00 pm

Location: Virtual

Pricing:

Early Bird (now – November 30)

Member: \$65

Non-Member: \$100

Registration (December 1– January 1)

Member: \$80

Non-Member: \$115

Target Audience

Working interpreters of all skill levels

Deadline for Registration: January 1, 2021

Register online from the garid.org "events" page
or mail registration to GaRID PDC, P.O. Box 4341, Valdosta, GA 31604
